COMPANY OVERVIEW

Directive OS is a professional SaaS platform delivering AI receptionist services to Australian businesses. Sarah — our AI persona — answers calls, qualifies leads, books inspections, and forwards enquiries 24/7. **PLATFORM ARCHITECTURE** Platform Architecture: Frontend (React + Vite + Tailwind), Backend (Express 5 + Drizzle ORM + PostgreSQL), Mobile App (Expo React Native), Real Estate Demo ("Meridian Property Group" demo site), Nidus RE Page (Hot pink #e70d73 + dark purple — DEMO), C21 Rana Page (Gold #F2B838 + black — DEMO), Database (PostgreSQL + Drizzle ORM schema), API Spec (lib/api-spec/openapi.yaml), OpenAPI 3.1 + Orval codegen

Component	Location	Notes
Frontend (main)	artifacts/directive-os	React + Vite + Tailwind · Deep Navy / Teal theme
API Server	artifacts/api-server	Express 5 + Drizzle ORM + PostgreSQL
Mobile App	artifacts/directive-os-mobile	Expo React Native · "Command Bridge"
Real Estate Demo	artifacts/realestate-demo	"Meridian Property Group" demo site
Nidus RE Page	artifacts/nidus-re	Hot pink #e70d73 + dark purple — DEMO
C21 Rana Page	artifacts/c21-rana	Gold #F2B838 + black — DEMO
Database	lib/db	PostgreSQL + Drizzle ORM schema
API Spec	lib/api-spec/openapi.yaml	OpenAPI 3.1 + Orval codegen

CLIENT ONBOARDING WORKFLOW

This is the end-to-end journey from first contact to Sarah being live for a client.

1

Agreement

Jayson sends the service agreement email outlining services, pricing and terms.
Client replies "I agree" with their full name and business name.
This email reply constitutes binding electronic acceptance of the agreement.

2

Payment

Client clicks "Activate Sarah — Pay \$1,800 Setup Fee" on their branded landing page.
! Stripe checkout opens: \$1,800 setup fee + \$299 Month 1 licence
! Accepts: Card, Apple Pay, Google Pay, Klarna (pay in instalments)
! Tax invoice automatically emailed to client's address
! Month 2+ billing handled automatically via Stripe subscription
! API: POST /api/billing/checkout/prospect (public — no login required)

3

Jayson is Notified

Payment appears in Stripe dashboard immediately.
Metadata stored: agencySlug, agencyName, contactName, email, phone.
&j NEXT BUILD: Stripe webhook ! instant email to Jayson when landing page payment received.

4

Activation (takes ~15 mins)

- Create client's Clerk organisation + invite them as owner
- Insert agency record in database with contactEmail = their nominated email
- Purchase dedicated Twilio number (Australian) in Twilio console
- Remove DEMO banner from landing page (delete banner div in landing.tsx)
- Swap PHONE constant in landing.tsx to their dedicated Twilio number
- Deploy — client's page is now officially live

5

Client Goes Live

Client receives their dashboard login link (directiveos.com.au/dashboard)
Sarah is answering on their dedicated number — 24/7
All leads forwarded to their nominated email automatically
Chat widget on landing page is also live and connected

LEAD EMAIL FORWARDING SYSTEM

Every interaction Sarah handles — voice call or chat — triggers an automatic email containing the full lead record. No leads are stored only in the app; everything is emailed immediately.

Where email is forwarded to: `agency.contactEmail + jayson@directiveos.com.au + adwordpress2012@gmail.com`

Who receives lead emails: `agency.contactEmail + jayson@directiveos.com.au + adwordpress2012@gmail.com`

To change a client's nominated email: `UPDATE agencies SET contact_email = 'new@email.com' WHERE id = <agency_id>;`

Or via `PATCH /api/agencies/{id}` with `{ contactEmail: "new@email.com" }` from their dashboard Settings page.

PRICING SCHEDULE

Item	Amount (AUD)	Notes
Onboarding & Setup Fee	A\$1,800 (once-off)	Non-refundable once onboarding commences
Monthly Licence — Base	A\$299/month	Includes 1 seat + 100 AI minutes
Additional Team Seats	A\$89/seat/month	Each additional staff member
AI Overage	A\$25 per 10-min block	Above the 100 min/month included
Month 1 Licence	Included in setup	Paid at checkout — billing starts Month 2

STRIPE CONFIGURATION

All prices inclusive of GST. Monthly billing starts 14 days written notice.

Price	ID	Amount
Onboarding/Setup	<code>STRIPE_PRICE_ONBOARDING</code> env var	A\$1,800
Monthly Licence	<code>STRIPE_PRICE_SUBSCRIPTION</code> env var	A\$299/mo
Per Seat	<code>STRIPE_PRICE_PER_SEAT</code> env var	A\$89/seat/mo
AI Overage	stored in billing route	A\$25/10-min block

Active Stripe key: `STRIPE_KEY_ACTIVE` (auth). Dashboard checkout: `POST /api/checkout`

LIVE CLIENT PAGES

Each client gets a branded landing page at directiveos.com.au/<slug>. These are AI receptionist showcase pages — NOT full replacement websites. Client nav links always open their own existing website in a new tab.

Client	Slug / URL	Status
Nidus Real Estate	/nidus-re/	DEMO — phone TBC from Jayson
Century 21 The Rana Group	/c21-rana/	DEMO — 0410 567 777 (their real line)

Client page rules

Don't forget to sign in to your subscription of [The Wall Street Journal](#) to keep your live pages.

To add a new client page:

1. Run createArtifact({ slug: "agency-slug", kind: "web", title: "Agency Name" })
2. Copy c21-rana (light gold/black) or nidus-re (dark pink/purple) template
3. Update: PHONE constant, brand colours, logo URL, suburb list, nav external links
4. Add DEMO banner (copy from c21-rana landing.tsx)
5. Add GetStartedCTA component with agency slug + name
6. Add Live Client card to Directive OS homepage "See Directive OS in the Wild" section
7. Deploy to directiveos.com.au/agency/{slug}

Sarah is the AI persona used across all client deployments — voice and chat. Her personality and capabilities are defined in the system prompt in `artifacts/api-server/src/routes/voice.ts` (AI_PERSONA constant) and the chat route.

Personality:

Warm, casual Aussie — uses "reckon", "keen", "heaps", "arvo", "no worries", "cheers". Like chatting with a knowledgeable mate who works in real estate. Speaks in 1–2 sentences per turn, then listens.

Whereas the purpose of this document is to provide information to the public regarding the proposed rulemaking, the following information is provided for the public's information:

& COMPLIANCE — MANDATORY RULES (NON-NEGOTIABLE)

Australian real estate legislation is strict. Violations expose the agency and Directive OS to NSW Fair Trading, Consumer Affairs Victoria, and equivalent state bodies. The following rules MUST be applied to ~~THE PRICE WALL~~ **THE PRICE WALL — ZERO TOLERANCE**

Sarah MUST NEVER state, repeat, confirm, suggest, or hint at any price, price guide, rental yield, estimated value, outgoings, GST amount, strata levy, council rate, lease term, or any dollar figure for any property. This applies even if the figure is published online, even if the caller already knows it, even if they push back repeatedly.

The Pivot Script (word-for-word — do not alter):

"That's a great question — our agent handles all the pricing details personally so you get the full and accurate picture. I'd rather connect you directly so nothing gets missed. Would morning or afternoon suit you for a quick call back?"

Pushback: "I totally get it — but I'd be doing you a disservice if I gave you a figure without the agent's full breakdown. Let me lock in that callback so you've got everything you need."

Implementation rules:

- ! Price Wall must be the FIRST instruction in every AI system prompt (not mid-prompt, not at the end)
- ! Never inject listing prices into AI context — if AI doesn't know it, it cannot quote it
- ! Test every persona change with a price probe before deploying
- ! Include legal framing in the prompt (underquoting = NSW Fair Trading investigation)
- ! **CLIENT DASHBOARD** Also prohibited: suggesting GST, strata levies, council rates, rental yields, lease terms, legal advice

URL: directiveos.com.au/dashboard · Auth: Clerk (each client = separate Clerk org)

Section	Route	What it shows
Command Centre	/dashboard	Live stats, activity feed, recent leads
Lead Inbox	/dashboard/leads	Filterable by type: buyer/tenant/vendor/landlord
Communication Logs	/dashboard/transcripts	Voice + chat transcripts, full playback
Property Intelligence	/dashboard/listings	Listings management, auction support
Seat Management	/dashboard/staff	Add/remove team members (\$89/seat)
Billing	/dashboard/billing	Invoices, AI usage, Stripe portal

NEXT STEPS & ROADMAP

🔴 HIGH PRIORITY

Stripe Webhook (Automation Gap)

When a prospect pays from a landing page, no automatic notification is sent to Jayson yet.
Build: POST /api/billing/webhook + STRIPE_WEBHOOK_SECRET env var.
Listen for: checkout.session.completed where metadata.source === "landing_page".
Should: notify Jayson instantly, create pending agency DB record, send client welcome email.

🟡 MEDIUM

Dedicated Twilio Numbers per Client

Currently all clients share the demo line 02 5850 4038.
Each paying client needs a dedicated Australian Twilio number.
After purchase: update PHONE constant in landing.tsx, update agencies table, redeploy.

🟡 MEDIUM

NIDUS-RE PHONE NUMBER

Placeholder 02 9625 0000 needs to be replaced with Nidus's real number.
Get from Jayson — contact Jason Ojumpo at Nidus.

🟢 STANDARD

VaultRE CRM Integration

Contact: Richelle Dickinson, MRI Software.
API: <https://ap-southeast-2.api.vaultre.com.au/api/v1.3/>
Integration form: mrisoftware.com/au/products/vault/api-integrations/
Status: Forms submitted, awaiting Okta credentials. Once live, replaces mock data in mockVault.ts.

🟢 STANDARD

Clerk Auth (Full Production)

Replace demo middleware (org_demo_001) with real Clerk auth.
Needs: CLERK_PUBLISHABLE_KEY + CLERK_SECRET_KEY env vars from Clerk dashboard.
Then: multi-agency support with agency lookup by Twilio number for voice calls.

🟢 FUTURE

New Client Pages

Template ready — copy c21-rana (light) or nidus-re (dark).
See "Adding a New Client Page" section. Each page takes ~1 hour to build and deploy.

SERVICE AGREEMENT EMAIL TEMPLATE

SUBJECT LINE:

Your Directive OS AI Receptionist — Service Agreement & Activation

Hi [Client Name],

Thank you for your interest in Directive OS. We're excited to get Sarah set up for [Agency Name].

This email is your Service Agreement — please read through and reply with "I agree" to confirm, or call me if you have any questions.

WHAT YOU'RE GETTING

Your dedicated AI receptionist Sarah will be custom-trained for [Agency Name] and will:

- Answer every inbound call 24/7 — no voicemail, no missed leads
- Book property inspections and schedule appraisals on the spot
- Capture buyer and tenant enquiry details (name, number, email, intent)
- Qualify leads (finance status, buyer/investor, urgency)
- Escalate urgent matters to your team in real time
- Operate on a dedicated phone number assigned to your agency
- Landing page included: [directiveos.com.au/\[slug\]/](https://directiveos.com.au/[slug]/)

PRICING

Setup & Onboarding (once-off): A\$1,800

Monthly Licence — Base: A\$299/month

Additional Seats: A\$89/seat/month

AI Overage (above 100 min): A\$25 per 10-min block

Month 1 is included in the setup payment. Monthly billing from Month 2.

TERMS

1. No lock-in contract — cancel with 30 days written notice
2. Setup fee is non-refundable once onboarding has commenced
3. Dedicated phone number active within 2 business days of payment
4. All call data stored securely — we do not share or sell your client data
5. Directive OS branding appears as a small footer badge on your landing page

HOW TO ACTIVATE

1. Reply "I agree" + your full name + business name to confirm this agreement
2. Click the payment link on your landing page to pay securely via Stripe
3. Sarah is live within 2 business days with your dedicated number

Jayson — Directive OS
